About VEDA

Vedic Education and Development Academy (VEDA) is a public benefit non-profit charity organization. VEDA was started to fulfill the needs of the community, to celebrate festivals and rituals following the agamic tradition and the temple was started in October 2009. **We purchased our own facility in Oct 2018** - while it is a significant milestone in just 9 years, we have exciting plans, to make it an iconic temple with authentic rituals.

Temples have always been pivotal institutions in protecting and preserving the great values of our ancient heritage. VEDA recognizes this big role and has not only been catering to the religious needs of the community but also has provided great fillip and inspiration for the continuity and development of our cultural, social, and educational values in the area.

2022 Year at a Glance

On New Year, we conducted the first **Ekanta Seva** for Perumal, and this is now an added feature **every Saturday (8:30pm to 9 pm)**. In the words of many our devotees, the Ekanta Seva filled the aura with piety that reminded them of Tirumala. The other new Seva that shone like a gem at the temple was the **Padmavathi Thayar Tirunakshatram** celebrated on Karthika Panchami. The divine celebration brought out the fragrances of Tiruchanoor and was a sight to behold. VEDA Temple is proud to have celebrated the "First Varshikotsavam" of the Prathishta of the moola moorthies of Venkateswara, Padmavathi, Andal, Vedaranyeswara and Vedanayaki as a three day event with a grand finale Rathotsavam for Perumal and Rishabha Vahanam for Shiva. We pray that Lord Venkateswara showers the privilege of entreating us with as many Sevas as He feasts at Tirumala - making VEDA the "**Tirumala of the Northwest**". VEDA thanks the selfless service by volunteers and priests in making these events a success.

We have continued to serve the community while pivoting to online services, provided full priest services for all functions and **conducted all major events with full pomp and splendor**. Mahashivaratri, Upakarma, Ganesh Chaturthi, Navaratri, Deepavali (with fireworks), Rathotsavam, Ayyappa Mandala Puja, Dhanur Masa Seva and Seattle Margazhi Utsavam are examples of the resiliency and resolve of our community. We thank everyone for staying safe - **we didn't have to close the temple anytime!**

VEDA Temple sincerely appreciates the patronage from many generous donors who have been instrumental in the growth of the temple since inception. Their donations have had profound influence in making VEDA Temple the nucleus of religious and cultural activities in the community and has etched the temple's name in the community. Continuing our growth, we now have donors who have donated more than \$200K! **Please continue to donate generously.**

Looking Forward to 2023

Our goal for the next year is to work with architects/shilpis to finalize the design for an iconic temple in the area. **Watch for exciting announcements in the coming months with preliminary designs for your input and associated activities; And we need your sustained financial support to realize these goals.** The temple has set up various endowments - Making an endowment to a temple is an act of religious merit. **Please sign up for an endowment that you connect with!**

Thai Pooam

Lord Subramanya received the "Vel" (lance) from His mother, Parvathi on Thai Pooam. Subramanya used the lance to vanquish the demon Surapadma. The festival is marked by Kavadi to Lord Subramanya, by carrying various offerings on one's shoulder. The types of Kavadi typically carried are milk, rose water and flowers. It is also common to offer pots of milk, honey & tender coconut water. Celebrate with kavadi & palkudam at VEDA: www.vedatemple.org/thaipooam.

VEDA offers Karya Siddhi Vajravel Parthana, with Subrahmanya Trishati archana to the Vel, every Tuesday. Many devotees have had their wishes granted and problems solved with this parthana. This is a unique program available at VEDA Temple for the past 10 years. Register at www.vedatemple.org/vajravel.

Pradosha Abhishekam & Its Origin

The evening of the thirteenth day of the moon is Pradosha when Shiva is worshipped with an abhishekam of many dravyas, during the evening hours, around sunset time. This Agamic ritual is a powerful ritual to remove the sufferings of the worshipper and yields the four fold objectives if life - righteousness, wealth, pleasures and liberation.

Rudrabhisheka is performed in full fervor at VEDA, every Pradosham day. Annual sponsorships available. To participate in Pradosha Abhisheka: www.vedatemple.org/pradosham

Maha Shivaratri

Magha (Masi) Krishna Chaturdasi is celebrated as Maha Shivaratri. Abhisheka Priya, Shiva is worshipped during the four yamas of that night with the chanting of Sri Rudram using 12 abhisheka vastus - rose water, pancha-gavya, panchamrta, ghee, milk, yogurt, honey, sugarcane juice, fruit juices, tender coconut water, sandalwood paste and water. An archana with bilva leaves relieves one of sins from three births and is assured of a place in Kailasha.

Ekanta Seva

This is the last Seva in the sequence of daily worship. The Shayana Moorthy of Perumal and Thayar are placed in a swing and rocked gently amidst melodious singing of Azhwar's and Annamacharya's lullabies.

Thayar uses this opportune moment of solitude to act as an intermediary between Lord Venkateswara and Her devotees, by magnifying our good deeds and brushing away our bad deeds, as if it were not important. This makes Lord Venkateswara renew His affection to us inspite of our shortcomings and grant us our wishes.

Join us every Saturday at 830pm for Ekanta Seva; To sponsor :

Bhagavathi Seva

VEDA Temple takes pride in being one of the very few temples in the US to conduct Bhagavathi Seva, a Devi worship ritual as mentioned in Tantra. The ritual requires the priest to have special initiation for the conduct of this puja. While even in India, not many priests are proficient with this know-how, VEDA Temple is proud to have Shri. Girish Sharma initiated in this powerful Devi worship.

Bhagavathi Sevai is both a "Prayaschitta" (performed for "dosha-nivritti" or for relief from several "doshas") and "Paushtika" (performed for any intended welfare) puja, performed at the "Sandhya Kalam" or at twilight. A special "Padmam" (the seat for Devi) is drawn by the initiated priest and with a few lit lamps, the priest, through Tantra Shastra, destroys his karmic body and reaches the subtle elements to invoke Devi in himself. The body of the priest becomes the body of Devi. He raises the Devi across all the chakras and seats Her in the Sahasrara Padmam and then transfers the Devi to the Padmam that he has drawn. The Devi in the Padmam is worshipped with all Upachara Pujas, using a certain combination of fragrant flowers (Shipped from India), Veda Mantras, Lalitha Sahasranamam, Devi Mahatmyam and Lalita Trishathi. This pleases Devi and She showers the divine nectar from the Sahasrara Padmam and this nectar is sprinkled on all the devotees. This creates a divine aura around the place and is a sight to behold. The priest then takes back the Devi into himself and lets Her melt into his body.

Panchanga Shraavanam on Yugadi & Tamil New Year

At the beginning of the new year, it has been a time-honored tradition to listen to a priest reading the Panchanga (Almanac/Calendar). This is called Panchanga Shraavanam. The five limbs of the Panchanga are Thithi, Vara, Nakshatra, Yoga & Karana. A glimpse of the likely events in the year, helps us to prepare for the year ahead of us. Panchanga Shraavana removes the ill-effects of bad dreams, confers merits of Ganga Snanam, Go-Dana, increases lifespan and begets good natured children.

Srinivasa Kalyanam

Kalyana Utsavams or the marriage ceremonies of various Gods are performed at our temple for our welfare - Yoga-Kshemam. Yoga refers to obtaining what we do not have and kshemam refers to retaining what we have. Both these are within our reach if Kalyana Utsavams are performed to the Lord.

Based on the advice by Brhaspati, Srinivasa Kalyanam was performed on Vaishakha Masa Shukla Dashami (when Uthra Phalguni was the ruling star) on a Friday.

It is considered a divine gift to assume the role of the "kanyadatas" or parents of Lord Srinivasa and Goddess Padmavathi, the divine parents of the world and perform their marriage. This is recognized as the most auspicious service rendered to the Lord.

In the Vimanarchana Kalpam, Sage Marichi details the fruits of conducting Lord Srinivasa's Kalyanam. Those who serve Srinivasa with Sridevi and Bhudevi during the Kalyana Utsavam will be purged of their sins instantly. Besides, their ancestors and progeny for ten generations (both maternal and paternal) will be cleansed of their sins. The women thrive with long life of their husbands. At the end they all attain the sacred world of Vishnu.

VEDA conducts Srinivasa Kalyanam every month to bring this opportunity to all devotees to sponsor and partake in the blessings of Lord Venkateswara. To register: www.vedatemple.org/kalyanam

Importance of Amavasya Tarpanam

Amavasya is the day when the sun and the moon are together. A month in the BhooLoka (15 days of Shukla Paksha and Krishna Paksha) is a day in Pitru Loka. When we offer tarpanam to deceased ancestors, once a month, on Amavasya, it amounts to offering food every day to them.

Karya Siddhi Vajravel Prarthana

This is yet another of the signature events at VEDA Temple. This puja involves devotees writing their prarthana and offering it at the lotus feet of Lord Subrahmanya and His specially consecrated Vajra Vel; the devotees then perform Subrahmanya trishathi archana for 6 weeks led by our priests and many devotees tell us that their prayers have been answered within the 6 weeks! Participate today!

Upakarma

Shravana nakshatra in Shravana masa is observed as Rg Upakarma while Shravana Poornima is observed as Yajur Upakarma. VEDA provides upakarma services with homam and full fervor. Register at www.vedatemple.org/upakarma

Upakarma is to be performed in the late morning hours. As part of Upakarma, Khandarishi Tarpanam is performed to honor 9 rishis who were Veda mantra dhrshatas. Although this is called Tarpanam, there is no stipulation to avoid heavy dinner (as in case of Pitru Tarpanam) since the occasion occurs on Poornima for Yajur Vedhis, avoid heavy dinner and a light "Palaharam" is recommended on Upakarma. Such light meal also serves to prepare the body as "poorvanga" for the next day's Gayatri Japam. Bhadrpada Hastha Nakshatra is observed as Sama Veda Upakarma.

Krishna Jayanthi, Janmashtami & Sri Jayanthi

Although Janmashtami and Sri Jayanthi are festivals that celebrate the birth of Krishna, they are termed differently and may occur on two different days. Krishna was born at midnight on Shravana Bahula (Krishna Paksha) Ashtami with Rohini Nakshatra when it was also the Simha month (solar calendar).

Gayatri Japam

The day after Shravana Poornima is celebrated Gayatri Japam day. Gayatri Homam is performed by all men (who belong to Rg, Yajur & Sama Veda) who had completed the Upakarma, the day before. Those unable to perform Homam alone chant Gayantri mantra 1008 times. Gayatri Homam relieves one of the lies that has been said for a year (so says Dharma Sutram). It is advised to perform this Japam/Homam on an empty stomach. VEDA does homam every year with all samagiri specially procured from India

Mahalaya Paksha

Mahalaya Paksha is a period of 15 days when all our Pitrus (deceased ancestors) come together to our houses and accept our offering of Shraddha to them. Performing Mahalaya Shraddha assures gift of children, long, healthy and wealthy life to their lineage. Our Puranas shows that there are many merit-based possibilities of life after death. The best souls, on account of their deeds when living, attain mukti (no birth), the second best go to swarga (heaven) with all comforts, stay for some time after which they take another birth.

Others reach the pitru loka, which has a series of worlds within it offering varied comforts, experiences and treatments. These differences arise due to the fact of not just commissions of bad karma but also due to omissions of good karma. Unlike those in swarga, pitrus in this loka, receive food and water only through the shraddha that their descendants perform in the earth. Our Pitrus have expectations from us and we have obligations towards them.

Mahalaya Shraddha is hence, not optional but mandatory.

A few days are considered auspicious to perform shraddha, although they can be performed on other suitable days (please consult our priests for suitable days). These are Maha Bharani (Mahalaya Shraddha on this day confers the merit of Gaya Shraddha), Madhyashtami and Gajacchaya.

Annabhishekam

Annabhishekam is offered to Shiva on Tula (Aippasi) Purnima. Annam Parabrahma Swaroopam. Each grain of rice is considered a Linga and this darshan becomes Koti Linga Darshan. Participating in the conduct of annabhishekam gives prosperity in this world and releases one from the cycles of birth and death.

Shankhabhishekam

Water poured in a shankha or the conch is supposed to be cool, like the showers of Chandra. Shaastraas vouch for the fact that such a Shankhabhisheka cools Shiva and pleases Him. Register:

Padmavathi Thayar Tirunakshatram

Among all the Utsavams performed, the one that is very dear to Her is Her Tirunakshatram celebrated on Karthikai (solar) Panchami thithi (Uttarashada nakshatram). Thayar Snapanam followed by Kumkumarchana are the highlights of the day along with the special birthday gifts that Perumal gifts Her - the "saare" (an auspicious offering) consisting of silk saree, blouse, turmeric, vermilion, garlands, aromatic perfumes, gold ornaments, laddu, vada, appams, Dosa etc. It is a spectacular sight to witness Thayar dazzling in all Her glory with the silk vastrams & garlands.

Sponsor Gaja Vahana for this event and partake in the blessings of Goddess Padmavathi Ammaru:

Skanda Shashti

The period from Asvayuja Amavasya to Shashti is celebrated as Skanda Shashti. In some cases if Shashti thithi starts before the sunsets of Panchami thithi, then Skanda Shashti is celebrated on Panchami. Subramanya takes birth as the son of Shiva and Parvathi to kill the asura Soorapadma. The battle lasts for six days and on the last day, Subramanya pierces Soorapadma with his lance. The asura turns into a mango tree. Subramanya cuts the tree into two pieces. One piece gets transformed into a peacock and becomes the vahana (vehicle) of Subramanya and the other piece becomes a cock on his flag. A visual enactment of this divine act of "Soorasamharam", is a signature event of VEDA Temple, forms the highlight of the 6th day.

Deepavali and Fireworks

Deepavali is celebrated on Krishna Paksha Chaturdashi in the Aswayuja (Aippasi) month. It is believed that Lakshmi resides in sesame oil and Ganga resides in waters of all rivers in the early morning hours (before sunrise before the moon sets) of Chaturdashi and "Abhyanga Snana" (oil bath, called "Ganga Snana") at that time saves one from entering Yama Loka. Ulka Danam (holding fire stick) is supposed to be lit in the Pradosha Kala of Deepavali and Amavasya. VEDA provides fireworks on both days. Another important aspect of Deepavali (which faded away in some parts of India) is the lighting of lamps outside the houses for three days starting from the day before Deepavali, on the day of Deepavali and the next day.

Ayyappa Mandala Puja

Ayyappa Mandala Puja begins in the month of Karthika. Devotees, upon initiation, undertake a fast for a period of 48 days, as an attempt to maintain external and internal purity. The devotees prepare "Irumudi Kettu" or two bags, one of which contains offerings of coconut, ghee etc. for Lord Ayyappa and the other that contains personal belongings which represent the "Papams" and "Punyams", that he has accrued from countless births. As he exhausts the contents of these bags, he is believed to have exhausted all his karma. The other bag is offered to Lord Ayyappa and is supposed to assure the merge of the devotee with Lord Ayyappa.

Shasta Preethi is an ancient sampradaya of worshipping and pleasing Shasta through a set of pujas and bhakti-invoking bhajans followed by Annadhanam served to the entire village. This is one of the signature events at VEDA. Register for sevas at www.vedatemple.org/ayyappa.

Dhanur Masa Seva

The month of Dhanurmasa is very auspicious to Vishnu. This is the last month before the onset of Uttarayana.

This month is the Usha Kala (Brahma Muhurtha) of Devas. Lord Vishnu awakens from Yoganidra on the first day of this month. Our temple rituals for the entire month, begins with the sacred Tiruppalliyechuchi and Andal's Tiruppavai. Worshipping Vishnu at the temple for a single day during this month yields the merits of worshipping Him with devotion for 1000 years and attain Vishnu Loka.

Lord Shiva is also worshipped at the temple with the chanting of Manikkavasagar's Tiruvempavai to invoke His blessings during the thirty days of Margazhi.

Calendar Explanation

महाक्रषि वशिष्ठ॥ यस्मिन् पक्षे यत्र काले येन दृग्गणितैक्यम् दृश्यते तेन पक्षेण कुर्यात्तिथ्यादिनिर्णयम्॥

Biggest misconception is "Indian Hindu festivals observance date in the Indian calendar / panchanga is applicable for all location in world". Observance dates from Indian Panchanga is valid only in India and is not transferrable to other locations. Another misconception arises due to the time zones differences is as USA/Canada and Europe is behind in time then Festival will come a day later in USA/Canada and Europe. This is incorrect. Tithis, Nakshatras, Yoga and Karana are events, they end at the same time instance all over the world. After calculating tithi and nakshatra end times in local timezone, the different rules help to determine each festival. The local sunrise, sunset, moon-rise, and moonset times are used with Tithi to determine festivals. Hence, sometimes festivals may appear on the same day as India or a day before in the countries west of India. The countries east of India the festival may appear on the same date as India or a day later.

Hindu day changes at the sunrise (not midnight), a Hindu day (Vaara) is from one sunrise to another sunrise. The Hindu date (tithi) doesn't change at the midnight, and it is not always fixed 24 hours long it can be anything between 19 to 26 hours. Each 12 degrees distance between the Sun and the Moon is Tithi. The tithi, nakshatra, yoga and karana are based on geocentric positions of the Sun and the Moon. This astronomical phenomenon happens at the same time on the earth everywhere, and hence thithis, nakshatra will begin and end at the same time all over the world, and we must convert them to our local

timezone. Indian panchang makers convert this times to Indian time. Likewise, other countries needs to convert these times in their time zone from UTC.

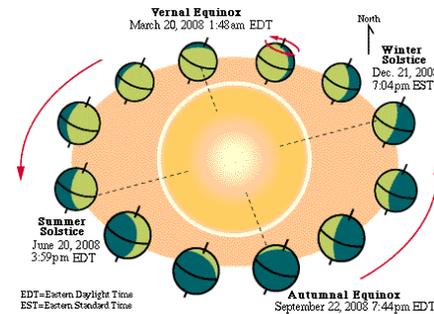

Indian panchang makers convert this times to Indian time. Likewise, other countries needs to convert these times in their time zone from UTC.

The sun doesn't rise instantly at the same time all over the world Hence we need local sunrise, sunset, moonrise and moonset times, along with Tithi, & Nakshatra ending times to determine festival date and time.

How festivals are determined? The sankathara chaturthi the chaturthi tithi must be prevailing during the moonrise time. Moonrise in New Delhi on a given date is at 19:36 and in West Bengal, Kolkatta is at 19:25 PM. Now tritiya ends at 19:32 PM IST. So Kolkatta will celebrate karwa chauth/sankathara chaturthi on the Tomm where as people in New Delhi will celebrate on the same day. Timings in this calendar are end timings of the Tithi and Nakshatra and for Sun/Moon entering time when it enters a new rashi.

What do the icons mean? The calendar is prepared based on global data and customized for each audience, per their local or regional observances as well as practices. The icons represent the appropriate activity on that day, as observed by the organization for which this calendar is prepared. Some calendars may not include any icons to keep the focus on the pancha-anga. ☀️ and 🌙 represent rising/setting times of the Sun and Moon respectively. 🙏 indicates fasting; ○ and ● represent Full/New Moon.

Uttarayana/Dakshinayana: The season occur based on earth's position around the Sun. This is due to Earth's tilt of 23.45 degrees. The Earth orbits around Sun with this tilt. When the tilt is facing the Sun, we get summer and when the tilt is away from the Sun we get winter. **This tilt creates an illusion that the Sun travels north and south of the equator.**

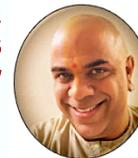

The Uttarayana (Winter Solstice) is the Sun appearing to move north. The Dakshinayana (Summer Solstice) is the Sun appearing to move towards South. This causes seasons, equinoxes and solstices.

There is a common misconception that Makara Samkranti is the Uttarayana. This is because at one point in time Sayana and Nirayana Zodiac were same. Every year equinoxes slides by 50 seconds due to precision of equinoxes, giving birth to Ayanamsha and causing Makara Samkranti to slide further. If you think Makara Samkranti is Uttarayana then as it is sliding it will come in June after 9000 years. **All Drigganitha Panchanga makers like mypanchang, Rastriya Panchang, Janmabhumi Panchang, will use the position of the tropical Sun to determine Uttarayana and Dakshinayana.** Hence January 14th isn't Uttarayana. Actual Uttarayana occurs on December 21st/22nd of every year. The same for Ritu. Ritus are always observed based on Tropical position of Sun.
